GOLD OR SILVER

Bryan Fails to Reply With Which he Would Pay Obligations.

ADVOIDS HONEST EXPOSITION

of His Present Attitude-Admitted Fact That he Would Thrust His Stiletto Into the Gold Standard. Crazy for Unlimited Coinage of Silver, are the Bryanites-New Mexico Should be Admitted to the Tinion.

From a Staff Correspondent. TRINIDAD, Col., Oct. 30.—Repeated velt to elicit a reply from Mr. Bryan

to the following question: "If elected President, will you pay the government obligations in gold or silver?" have lately resulted in signal failure. The great champion of free silver has evaded the question, and his sole reply has been: "I will obey the

Throughout the campaign Mr. Bryan has studiously avoided an honest exposition of his present attitude on the oney question, and many gold Democrats who are opposed to his financial vagaries, have entertained the belief that he has abandoned his former posttion, and if elected will not undertake to repeal the law establishing the gold erendard. But the sharp criticisms of his conduct in seeking to ignore this pertinent inquiry have at last goaded him into a candid declaration of his views and purposes.

Talked on Silver.

In delivering a speech to the students of Yale University, on Saturday, some-body cried out: "What about silver?" Mr. Bryan's reply was sufficiently convincing to satisfy everybody that the free silver issue is not dead, nor even indulging in a very profound slumber.

"I want to remind the man who wants to know about silver that you do not have to ask questions to find out our policy on the money question. If the gentleman can read he can read a platform that states, the party's position so that even a Republican can un-denstand it, and if he has not time to read the platform and knows anything of me, he knows where I stand, whether there is a platform or not." Therefore, it is now an admitted fact that if electof Mr. Bryan will thrust his stiletto into the gold standard law just as Mr. Cleveland thrust his knife into the tariff laws, and everybody who is opposed to this act of assassination are varned not to vote for Mr. Bryan, the notification being given by himself.

Mr. Teller's Speech.

If further evidence of the purpose of the Democratic party to enforce the "free and unlimited coinage of silver at a ratio of 16 to 1 without the aid or consent of any other mation," is required, it can be found in the speech of Senator 11. M. Teller, delivered at the Coliseum at Denver, on Saturday last, the same day that Mr. Bryan laid aside his mask at Yale, and amazed the students in an unexpected burst of confidence. by proclaiming his continued devotion to the free silver idol. Mr. Teller said Silver is an issue in this campaign. The Democratic, Silver Republican and Fopulist platforms have declared for sliver at a ratio of 16 to 1, and it must be an issue, although there are other questions involved in this campaign that we did not have in 1896. If Bryan should be defeated will we surrende the fight? No! Even if he is defeated principle for which he fought will be carried along by others, and even-tually we will succeed in placing in the presidential chair a man who will enforce the principles for which he strug-

Take a Visit to Colorado.

Now, if there are any sound money Democrats in West Virginia who think the Bryan Democracy has repudiated the silver issue despite the deliberate incorporation of that plank in their platform, the utterances of the distinguished man I have quoted, ought to undeceive them, but if that is not sufficient then they should visit Colorado and see to what extent the people are saturated with this destructive mone tary idea, and then they may realize difficult it is to overcome the prejudices of men whose judgments have been swayed by the specious reasoning of the apostles of silver.

If that issue was wholly eliminated, Colorado would certainly return to the Republican fold, and her material interests would thereby be advanced and consumed, but the roots of this tree of evil have been firmly planted in the soil and the process of engrafting the fruits of wisdom is slow and tedious, though there is now discernible some blossome of common sense, and in another year the fruits of knowledge may predominate, and Colorado stand forth regenerated and ready to aid in a righteous solution of the problems of the coming century.

Want Admission to the Union.

I have recently travelled considerably through the territory of New Mexico and I think the appeal of her people for admission to the Union should heeded by the next Congress. She has the population necessary for admission, and her resources are being rapidly developed. The people justly complain that they are kept "between the devil and the deep sea," and declare that the vote for admission because they be-lieved New Mexico would line up in the Republican column, and that the present Republican Congress excludes her on the ground that she would array hernelf on the side of free silver.

However that may be, I think the time has come when she should join the sisterhood of states, and there is no doubt of where she would stand after the silver question has been relegated to deserved oblivion.

Cure guaranteed. Sold by Logan Drug Co., Druggists.

WOMAN'S SUFFRAGE.

An Appeal for the Right of Enfranchisement by a West Virginia

To the Editor of the Intelligencer. Replying to an editorial headed "Woman Suffrage," in the Wheeling News of the 2nd inst, I desire to state that the only form of suffrage possessed by the women of Chicago, Ills., is to vote for trustees of the state university (which is co-educational) and if adult owners of board for drainage commissioners. As these questions do not como up "next Tuesday" in Chicago, the women of Chicago will not be allowed to

vote there at all. .

In Denver, Col., the Republican and Democratic women are holding large political meetings at this time-varying from 300 to 600 and 700, for their presi-dential candidate. These metings are composed entirely of women, many of them taking place in the parlors of the Denver ladies. One Wheeling lady, for-merly Miss Grace Boyd, and now Mrs. Samuel L. Carpenter, of Denver, Col. who is a Democrat in politics, recently held a Bryan meeting of the Democrat women of Denver in her parlor, 30 women attending. The size of the meeting only limited by the size of her parlors to hold them.

As to the women not going to use th elective franchise in the states where she possesses it on an equality with the men of the state-the answer is-just watch for the official figures for Tues day next.

ginia desire Ao "sympathy" on account of the non exercise of the franchise by women of states where they cossess it. For the women in every such state do exercise it, in greater numbers in proof those states, and nobly have they exin their hands, for good men, good government, and their own protection and advancement, and nothing but the most wilfully ignorant can deny it.

The women of West Virginia feel no

discouragement on the subject of their enfranchisement; every West Virginia man worthy of the name, have given the women of their states words of good cheer and hope, that when the question of the justice of granting the franchise, to the women of the state, comes before the men of the state to be voted on, It will be a very unanimous yea.

WOMAN SUFFRAGIST.

Wheeling, W. Va., Nov. 4.

Questions for the Register.

To the Editor of the Intelligencer. SIR:-Will you kindly allow me space

to ask the Register a few questions? 1. There is a free silver plank in the Kansas City platform; yet Democratic papers and speakers are saying as little as possible about it. Why?

2. If free silver was the only thing that would save the country in 1896, why is it not the only thing yet? Why do we hear nothing of the "Crime of '73?" 3. If Mr. Bryan is such a good friend of the poor people, why does he ent \$12 dinners and associate with the rich people?

4. From the time the Democratic par ty was formed to 1896, the cry was: "Give us tariff for revenue only." Why isn't that the issue yet?

5. Why does the Democratic party always wait until the Republican party holds its convention, nominates its candidates and adopts its platform, then oppose everything?

done against trusts but talk? Are there no Democrats interested in trusts other wise than talking against them? If so

why not howl them down?
7. If governing without the consent of the governed is such a horrible thing in the Philippines, why ign't it just as hor rible in North Carolina, Louislana, Mis sissippi, Alaska, Hawaii and the territories?

I hope the Register is not afraid to answer these questions. W. T. SMITH,

Sherrard, W. Va., Nov. 1, 1900.

FINANCE AND TRADE.

The Features of the Money and Stock Markets.

NEW YORK, Nov. 3 .- Money on call NEW YORK, Nov. 3.—Money on call nominal. Prime mercantile paper, 4%, 65½ per cent. Sterling exchange steady, with actual business in bankers' bills at \$34,83½@4 \$5½ for demand and at \$4 \$5 for sixty days. Posted rates, \$4 \$1.50 4 \$1.50 and \$4 \$5. Commercial bills, \$4 75½ 64 \$0. Sliver certificates, 64½ 608%c. Bar silver, 64½c. Mexican dollars, 50½c. State bonds inactive. Railroad bonds ateady. Government bonds strong. The attention of stock exchange brokers was largely diverted to the political parude to-day, and trading was almost entirely confined to the closing up

cal parade to-day, and trading was al-most entirely confined to the closing up of contracts over Sanday, or until after election. The bears were disposed to cover, evidently, as prices moved up-wards for the most part. Inspired statements regarding the heavy carn-ings shown from operations of some of the steel corporations, and a report that a large contract in South America had the steel corporations, and a report that a large contract in South America had been secured by the Freezed Steel Car Company helped the latter steek to the extent of three points and other members of the group 1 to 1½ points. There was an urgent demand from a short interest in Sugar, and some of the New York public utilities shot inpward quite buoyantly. In the railroad list the gains were smaller, but general. Louisvillo sold in small quantity at 1½ per cent over last night's level, and only a few other railroad stocks gained as much as a point. Just before the close prices ran off sharply on profit-taking, which was conspicuous in Sugar and Brocklyn Transit. The tone was easy at the end. Sentiment was not much discomposed by yesterday's flurry in the call ioan market, as it was attributed in part to manipulation. The conditions which made the manipulation effective are felt to be temporary, and the quick weakening of tentions of the conditions of the conditions of the part of the part of the part of the conditions of the part of th are felt to be temporary, and the quick weakening of sterling exchange yesterare felt to be temporary, and the quest weakening of sterling exchange yesterday, in response to the rise in money, gave confidence that any requirement for money would draw additional gold from Europe. The stock exchange seemed to expect a gain in cash to be shown in the bank statement, as there was a failure to take account of last Saturday's statement having already anticipated the effect of large payments for gold, which are made to figure again in this week's statement of sub-treasury operations. Had it not been that the gain on the interior movement ran up considerably over yesterday's preliminary estimates, the decline in the reserves would have been considerable. The reduction in the loan and deposit items made the decrease in the surplus merely nominal. A feature in the

items made the decrease in the surplus merely nominal. A feature in the outside market was buying of Standard Oil up to \$505 and \$610 bid. The previous high record for the stock was \$500.

Last week's rapid speculative gait had checked this week, and the volume of dealings has fallen off to near the point of midsummer dullness. There is a disposition in Wall street to attribut; this to a judicious curbing process by what are called "The controlling interests,' ineaning the interests which are deeply committed to speculativ, ventures. This is so far true that the inordinate manipulation, which was the feature of last week's dealings, has been largely discontinued.

argely discontinued. German money markets have The German money markets have made good progress towards recuperation, but are not expected to be in condition to meet foreign requirements for the present. Those who seek light on the future of the stock market by the analogy of events in 1898 would find that after rising from early in October ligh prices were touched generally within a week after election, after which they declined until late in December to near the early October lovel again.

again.

Business in bonds has been on a de-clining scale, and largely concentrated in a few mortgages of speculative val-ues. Prices have recoded.

United States new and old 4's ad-vanced 4's per cent, and all other issues 4' per cent over the call price a week ago.

Offered.
Broadstuffs and Provisions

CHICAGO-Wheat advanced %c to on bullish Argentine advices, Corn

closed he higher and oats unchange?. Provisions at the close were ?ac lover. Wheat was inactive throughout the session, traders, as usual, being inclined to keep their trades evenly balanced against developments during the Sunday rest. Operations by scalpers formed most of the business, but there was some buying by the northwest from local interests bearishly inclined. December opened a shade lower at 73%c to 73%c, because of the excellent weather and a decline at Liverpool, which, however, was only equal to the drop here yesterday. At this point shorts were moved to cover their sales by an Argentiae cable estimating the exportable surplus from the coming crop at 45,000,000 bushels or 27,000,000 less than the surplus of the crop at the present moving. December advanced to 73%c and closed at that figure, %c over yesterday. The senboard reported four loads taken for export. Seaboard clearances in wheat and flour were equal to 424,000 bushels. Primary receipts were 782,000 bushels. Compared with 710,000 last year. Minneapolis and Duluth reported 568 cars, against 506 last week and 723 a year ago. Local receipts were 120 cars, year ago. Celery King cures Nerve, Stomach, Liver 563 cars, against 566 last week a

year. Minneapolis and Duluth reported 553 cars, against 566 last week and 723 a year ago. Local receipts were 120 cars, two of contract grade.

Corn ruled quiet, but firm. Country offerings were small and there was a good cash demand which, combined with the strength in wheat, sustained prices in the face of the excellent weather. Receipts were 191 cars. December opened a shade higher at 35½c to 35½c, at which the market closed 1½c higher than yesterday.

Outs were inactive and bare of feature. Speculation was at a standsill. Prices were steady, however, on small acceptances and a fair shipping demand. December sold between 21½c and 22c, closing unchanged at 22c; receipts were 137 cars.

Provisions were generally dull. The market opened lower because of liberal hog receipts, lower prices at the yards and a liberal estimate of the receipts were. There was a good cash demand for lard, but the opening lors was not entirely regained. January pork sold between \$1 12½ and \$111½ and stored 2½c lower at \$11 22½; Jund 36 67½, closing 2½c down at \$6 67½, and January ribs between \$5 97½@ 600 and \$5 97½, with the close 2½c depressed at \$5 37½, with the close 2½c depressed at \$5 37½.

Sheep dull and lower at \$1 5008 50. Lambs strong at \$3 2305 25.

Dry Goods.

NEW YORK-The market to-day has been brought to a complem standstill by the sound money parade, many houses opening only to receive their houses opening only to receive their mail, while in all there was a suspension of operations until Monday, which, however, is not expected to show much improvement over to-day. A radical change in market conditions is looked for after election, when many deals are expected to be completed and now apring business inaugurated.

Weekly Bank Statement

NEW YORK-The weekly statement of averages of the Associated Banks shows Loans \$792,330,300, decrease \$1,054 300: deposits \$241,775,200, decreased \$1. 300; deposits 3241,775,200, decreased \$1,-616,500; circulation \$30,717,800, increased \$157,800; legal tenders \$58,331,100, increased \$405,100; special \$158,042,100; decreased \$59,600; total receive \$21,326,200, decreased \$404,075; surplus, reserve \$2,000,000; decreased \$404,075; surplus, reserve \$2,000; decreased \$4,000; d 950,400, decreased \$81,425.
